JEVMADE TIMELINE BRIEF · SEPTEMBER–NOVEMBER 2026

Eight Weeks of System One: From TypeSafe's Stealth Exit to Three Hyperscalers

Chronology of verified launches, funding milestones, open-weight standards, and enterprise adoption metrics.

DATE (2026)	MILESTONE	VERIFIED FIGURE / DETAIL
Sep 11	TypeSafe AI anti-benchmaxxing manifesto	"Lies, Damned Lies, and Benchmarks" published pre-launch
Sep 15	TypeSafe AI exits stealth with Jev 1.13	$0.042/M input tokens, output free, 70–500 ms latency; 1T tokens in 3 days
Sep 17–18	LangChain & Vercel AI Gateway launch day integrations	~13% of paid Vercel AI Gateway teams try Jev on day one
Sep 21	Diogo Almeida on Latent Space	Most popular Latent Space episode of 2026; unpacks RLCD
Sep 23	First wave of 7 open-source Jev alternatives	Laya, Nimble, Kev, SemIf, Rizzo Flow, Von, NanoJev
Sep 29	OpenAI DevDay preview & PostHog Jeeves 9B	First hyperscaler preview; 9B reasoning-before-deciding model
Sep 30	Databricks launches ai_decide	Native SQL & REST decision function over governed data
Oct 1	Cloudflare Clef (27B/9B) & AWS Strands Decider 2B	Apache 2.0 open weights + Jev-compatible Workers AI API
Oct 9	TypeSafe $870M Series A ($7.5B); MSFT Decision-1; Clef-omni	a16z leads; 1/3 Fortune 500; Clef-flash cut to $0.038/M
Oct 14	Jev 1.14.0 & Danger Zone headers	Composable images, bounding box type, 262K context
Oct 16–20	Vercel Index (35.3% teams), Snowflake Fast, MotherDuck, UiPath	Jev takes 0.27% of spend for 35.3% reach; MotherDuck 100k rows in 40s
Oct 22–25	OpenAI Decisions API GA & Parallel Decisions API	Up to 400 questions/call (OpenAI); live web citations (Parallel)
Nov 3	Sarvam Prism (105B MoE, 44 ms) & TypeSafe "Don't Call It…"	Apache 2.0 FP8 CUDA Graph model; "Jev makes judgments, code makes decisions"

DATE (2026)	MILESTONE	VERIFIED FIGURE / DETAIL
Nov 10–11	Hugging Face DecisionPipeline; Google Gemini Decision 1; AIE Code	Transformers standard; 1,000-question multimodal API; Glean & UiPath onstage
Nov 19	Diogo Almeida publishes OpenAI origin memo story	“We Could Have Had AGI Last Year” sparked TypeSafe AI

> **Adoption highlight:** Across October 2026, decision models grew to account for roughly one in four requests on Vercel’s AI Gateway, while Jev alone processed over 5.8 billion requests in a 30-day window on OpenRouter.
